API - - Voucher

Voucher API issues:

No. of vouchers object is not working.
Multiple Vouchers can't create. On more than one voucher shows a voucher already exists message. But when I GET the API with country code there is 1 voucher created.

API - - Delete Voucher

Not working.

API - - Get vouchers by Service ID

In this API Assigned ID is not working.
Can't find any record.

API - - Get Active voucher by user ID

Not giving relevant data.

API - - Search Voucher

In response body user id is not updated.

API - - Wallet

In the Credit and Debit API if Currency is not the same API is accepted. There should be a check for the same currency.
